Tidewater Community College, Portsmouth Campus, provides a two-year, non-residential institution offering a comprehensive higher educational program designed to meet the needs of area citizens. It cooperates with local industry, business , professions, and government in helping provide the requirements for trained manpower.

It is the agency's desire that no qualified students be denied educational services due to financial need. The financial aid office provides information concerning aid programs and administers financial aid programs funded by the federal government. Admissions Testing- The agency administers the comparative guidance and placement test to new students planning to enter one of the associate degree, diploma, or certificate programs. It is administered prior to registration.

The agency maintains a job referral service to aid students in securing employment while attending college, during vacations, and after graduation. Vocational Rehabilitation- The school works with the state Department of Vocational Rehabilitation in providing education and training for persons with handicaps.

ADDITIONAL INFORMATION: Financial Aid Services-There is a financial aid office which provides information on financial assistance. A work study program is

available for those desiring part-time employment. Attempts are made to secure employment for students. The school provides counseling as well as admissions and guidance testing for students. Vocational rehabilitation-The college works with the state department of vocational rehabilitation in providing education and training for persons with handicaps. Tidewater Community College is a two-year non-residential institution offering a comprehensive program designed to meet the needs of area residents. It cooperates with business, industry, professions, and government by providing trained manpower. A six-week course in truck driver training is also offered. Manual Communication Skills I: Agency provides this class to teach sign language to those who wish to communicate more effectively with the hearing impaired.
