Social Security: Supporting Veterans and Active Duty Military Members

Social Security has resources for veterans who served our country and risked their lives to protect us.

Our Wounded Warriors webpage is an important resource for military members who return home with injuries. If you know a wounded veteran, please let them know about our [Wounded Warriors](#) webpage.

The page shares information about our Social Security Disability Insurance (SSDI) benefits for veterans, including:

- How SSDI benefits are different from benefits available through the Department of Veterans Affairs and require a separate application.
- How we expedite the processing of Social Security disability claims for service members. If they develop a disability while on active military service on or after October 1, 2001, they can file a disability claim regardless of where the disability occurs.
- Answers to questions asked about Social Security.

If active-duty military service members are unable to work due to a disabling condition and continue to receive pay while in a hospital or on medical leave, they should consider applying for SSDI. Active-duty status and receipt of military pay doesn't necessarily prevent payment of SSDI benefits.

Our webpages are easy to share on social media and by email with your friends and family. Please consider passing this information along to someone who may need it.
